Sep 2024

- Responsible for preparing the event venue and necessary equipment for the activities.

## EDUCATION

---

### SMKN 1 Cibinong – Bogor, Indonesia

Information Technology

Jul 2022 – Present

- Majoring in Network and Application Information Systems along with related fields.
- Current Score: 87.89/100.
- Selected as the school representative for the 2024 MikroTik Networking Olympiad.

### SMPN 2 Cibinong – Bogor, Indonesia

Jul 2019 – Aug 2022

- Final Score: 88.23/100

## PROJECT

---

### School Fee Payment Application – Bogor, Indonesia

Network and Application Information Systems

Sep 2024 - Present

- This application is designed to streamline the school fee payment process. With secure and efficient features, the application allows parents to make payments online, track payment history, and better manage their bills.

### Rent Clothes Application – Bogor Indonesia

Network and Application Information Systems

Jul 2024 - Present

- This project aims to build an e-commerce platform facilitating clothing rentals. With a focus on sustainability, the application provides various clothing options for rent, allowing users to reduce the environmental impact of the fashion industry and support more responsible consumption practices.

### Book Recommendation 2024 – Bogor, Indonesia

NEVTIK (Network Evolution Technology Information and Knowledge)

Jul 2024

- This project compiles the "Book Recommendation 2024" focused on technology and innovation. The book is intended to provide insights to readers on current topics in the tech world and to suggest quality books relevant to knowledge development in the field.

### **Face Recognition – Bogor, Indonesia**

*NEVTIK (Network Evolution Technology Information and Knowledge)*

Jul 2024

- This project develops a facial recognition system that can be used in various applications, including security and access management. By using machine learning algorithms, the project aims to enhance the effectiveness of surveillance systems and provide innovative solutions for identity recognition.

### **Portfolio Website NEVTIK – Bogor, Indonesia**

*NEVTIK (Network Evolution Technology Information and Knowledge)*

Jan 2024

- This portfolio website showcases various projects and activities undertaken by NEVTIK members. With an attractive and informative design, the website aims to promote innovation and achievements in the field of information technology and applications while providing a platform for members to display their work.

### **Self Portfolio Website – Bogor, Indonesia**

*Network and Application Information Systems*

Jun 2023

- This personal portfolio website is designed to showcase skills, experiences, and completed projects. Aiming to attract potential employers or collaborators, the website includes information about education, projects, and relevant achievements.

### **NEVTIK ChatAI – Bogor, Indonesia**

*NEVTIK (Network Evolution Technology Information and Knowledge)*

Mar 2023

- This project develops ChatAI, a conversational system designed to provide information and support related to technology and innovation in the field of artificial intelligence. The project aims to enhance knowledge accessibility through easy and responsive interaction with users.

## **LICENSE AND CERTIFICATION**
